There Is A Difference —

Selected
Seed

—FOR—

Perfect
Trees

Musser Selects True-Strain Seed

All tree seed is not the same. If the parent tree has undesirable qualities, its seed will perpetuate those qualities. To be sure of the best obtainable seed, we send men all over the United States to seek out mature, hardy, disease-resistant parent trees with straight stems and foliage of rich color.

We import seed picked from selected stands of timber in Europe, which have been developed through generations to bring out desirable characteristics.

Such selectivity is costly—yes. But it puts meaning into the phrase, "Musser Trees Grow Best."

Musser Root Systems Are Superior

The young Musser tree with strong, extensively branched, but compact, root system is the tree that survives. Good heredity characteristics through selection of seed is the basic requirement—careful handling and scientific culture in the nursery is also essential. The many additional feeder roots in Musser Cultured Tree Stock enable the young tree to extract the most food from the soil of your planting site. Musser Tree Stock is superior. It will survive where inferior planting stock will not.

Transplanting Makes More Roots

Stock is transplanted in our nurseries from one to four or more times. Each time, the longer, more easily damaged roots are reduced so that more small feeder roots develop near the stem. The more feeder roots, the more quickly the tree is established on your land. Also, the resulting compact mass of small feeder roots makes the tree easier to plant.

Each year, in the spring and summer, we transplant hundreds of thousands of seedlings to build more feeder roots. Results prove extra cost is repaid many times over.

Cuttings and Grafts Guarantee Qualities

To reproduce exact qualities desired in stock of a certain species, Musser Forests propagates by cuttings or grafts.

ROOTED CUTTINGS are small branches from perfect specimen trees, rooted in our propagation houses under controlled conditions of fertility, moisture and temperature. In cases where a species will not root from cuttings . . .

GRAFTS are produced by introducing cuttings of the desired quality on to hardy root stock of a related species. Grafting is a complicated cultural process covering some months.

COVER: Fred Musser compares Musser Special Strain Seedlings with ordinary stock, proving the advantage of Musser Culture.

Thousands of Seedlings are transplanted each year for sturdier root structure. The tremendous volume of the three Musser nurseries means low prices.

Acres of sturdy, well-rooted, strong-stemmed Scotch Pine shown below are typical of the superiority of Musser Cultured Stock. "There is a difference."

Musser Trees Grow BEST!

Musser Headquarters—Part of 520 acres growing nursery stock is shown above: office, packing buildings, propagating houses, 35-acre pond, and millions of Seedlings, Transplants, Rooted Cuttings and Grafted Specialties.

Plant Quality MUSSER Trees

- 1** Make a \$1000 investment to plant a 50 acre tract worth \$15,000 for timber in about 30 years (\$10 per acre each year).
- 2** Bring cash profits by thinning Christmas Trees from a forest plantation.
- 3** Musser Trees have no restrictions as to selling for Christmas Trees or lumber.
- 4** They are a cash crop requiring no cultivation or extra care.
- 5** Plantation Trees are always at the top of the Christmas tree market.
- 6** Trees will increase the value of a property if it is being held for resale.
- 7** A Tree Plantation is an excellent savings account with a high rate of interest.
- 8** Trees will pay for a college education for your children if started early and properly managed.
- 9** Bring idle agriculturally useless land into production profitably.
- 10** Improve soil by retaining moisture, preventing erosion, and restoring fertility.

Propagating House Culture of Rooted Cuttings to guarantee true qualities.

Musser Seedlings and Transplants grow readily on abandoned farm land; Christmas tree harvest in 6 to 10 years. Some trees may be left for timber.

Thousands visit our Retail Sales Yard each year to personally select nursery stock. Such a visit is a highlight of any trip through our area.

WHITE PINE

SCOTCH PINE

RED PINE

AUSTRIAN PINE

MUGHO PINE, UNSHEARED

Musser ORNAMENTALS

The items listed below are well branched, heavy stemmed, and will develop rapidly into beautiful evergreen foundation plantings, or valuable specimens. Flowering shrubs listed on page 19 can be added for seasonal color.

All items listed on this page, sold in lots of 5 or more.

WHITE PINE

Very adaptable as to soil. Will do better on heavy wet soils than the other Pines. Very soft, silver-green needles, $2\frac{1}{2}$ to 5 in. long. Shear for compact form. Excellent, fast-growing windbreak.

See center pages for
Seedling and Transplant Stock

SCOTCH PINE

One of the most rapid-growing species. Especially good when sheared. Musser's Special Strain Scotch Pine retains its blue-green or silvery green color in cold weather. Needles $1\frac{1}{2}$ to $2\frac{1}{2}$ in. long, curled.

Lots of 5 or more, each
*6-yr. Twice Trans. 16-20 in. . . . \$1.00
*7-yr. Twice Trans. 18-24 in. . . . 1.50

*Packed in ball of peat moss

AMERICAN RED PINE

A rapid-growing, bushy tree; very popular. Dark green, soft needles 4 to 7 in. long. Requires sun. Excellent for background or fast-growing windbreak.

Lots of 5 or more, each
6-yr. Twice Trans. 16-18 in. . . . \$0.75

Not packed in ball of peat moss

*7-yr. Twice Trans. 18-24 in. . . . 1.00

*8-yr. Twice Trans. 24-32 in. . . . 1.50

*Packed in ball of peat moss

BALSAM FIR

Fine fragrance. Grown best in the northern states, in a cool moist climate.

Lots of 5 or more, each
*7-yr. Twice Trans. 12-18 in. . . . \$1.00

*8-yr. Twice Trans. 18-24 in. . . . 1.50

*Packed in ball of peat moss

AUSTRIAN PINE

Beautiful, compact ornamental and Christmas tree. Excellent, fast-growing windbreak.

Lots of 5 or more, each
6-yr. Twice Trans. 12-18 in. . . . \$1.00

*7-yr. Twice Trans. 18-24 in. . . . 1.50

*Packed in ball of peat moss

WHITE BIRCH

One of the most beautiful novelties in shade trees. When mature, bark turns creamy white; leaves are fine-cut, light green. Plant several in each location for a picturesque clump.

Per 100

Seedlings 16-24 in. . . . \$10.00

Transplants 24-30 in. . . . 25.00

Specimen tree 5-6 ft. 3 for \$12.50

Well branched.

NORWAY MAPLE

One of the best trees for street planting or for lawn specimens where good form and shade are needed. Its dense leaves are rich green and are held on the tree about two weeks longer than other Maples. Grows 50 to 60 feet tall. Illustrated page 11.

Per 100

Visit Our Nurseries

You will enjoy a visit to our nurseries, where 520 acres are devoted to the growing of superior planting stock. Many unusual and desirable items of larger nursery stock not listed in this catalog are available with roots balled in original soil, secured in burlap. Though not practical to ship, such items may be picked up in your car and planted on your site with complete success.

Have the fun and satisfaction of being your own Landscape Gardener!

WHITE ASH or GREEN ASH	6-12 in.	5.00	25.00
---	-----------------	-------------	--------------

Easy to grow. Tall oval shape permits grass to grow beneath its branches. Brilliant yellow autumn foliage.

NORWAY MAPLE	1-yr. 6-10 in.	8.00	40.00
	2-yr. 10-15 in.	14.00	70.00

Seedling stock of variety described on next page. Lots of 50 at 100 rate.

SUGAR MAPLE (Hard Maple)	6-12 in.	10.00	50.00
---	-----------------	--------------	--------------

Mature trees provide maple sugar products from sap in spring. Brilliant scarlet autumn foliage. Fast growing.

SILVER MAPLE	6-12 in.	6.00	30.00
	12-18 in.	9.00	45.00

Fastest growing Maple. Spreading tree growing to 60 to 70 feet. A cut leaf with silvery cast, also silvery bark.

JAPANESE MAPLE	3- 5 in.	10.00	50.00
---------------------------------	-----------------	--------------	--------------

Small red-leaved Maple used as ornamental.

SHELLBARK HICKORY	6-12 in.	20.00	100.00
------------------------------------	-----------------	--------------	---------------

Distinctly American tree of walnut family. White, sweet-kerneled nuts. Attracts game. Lots of 50 at 100 rate.

SYCAMORE	12-18 in.	12.00	60.00
---------------------------	------------------	--------------	--------------

(Buttonwood; American Plane Tree.) Tall, picturesque tree, with white peeling bark and unique branch structure.

WHITE BIRCH

Individually well-branched specimen trees. **5-6 ft.** **\$5.00** **\$12.50**

One of the most beautiful novelties in shade trees. When mature, bark is white and the leaves are a fine light green. Plant several in each location for a rare and picturesque clump, winning the admiration of your friends and neighbors.

NEW CHINESE CHESTNUT (Blight resistant) **3-4 ft.** **3.75** **9.75**

Will bear large, sweet, delicious nuts 2 years after planting. Very fast growing. Valuable as ornamental and for shade, as well as for fruit. Plant 2 or more for pollination. Grows 30 to 40 feet tall. See photo on preceding page.

WEeping WILLOW, Wisconsin **6-8 ft.** **3.75** **9.75**

Very rapid-growing tree with graceful drooping branches. Will succeed in any location but prefers moist soil. Especially effective near pools or river banks, along drives or as specimen plants. Frequent cutting back gives a thicker growth of bright green twigs. Grows 25 to 30 feet tall. Illustrated at left.

NORWAY MAPLE **6-8 ft.** **5.50** **14.75**

One of the best trees for street planting or for lawn specimens where good form and shade are needed. Its dense leaves are rich green and are held on tree about two weeks longer than other Maples. Grows 50 to 60 feet tall. See photo at left.

SILVER MAPLE **5-6 ft.** **3.75** **9.75**

Most rapid grower of all Maples. A large, spreading tree which, at maturity, has a height of 60 to 70 feet. A cut leaf with a silvery cast, and also a silvery bark. Sap is good for sugar making.

SUGAR MAPLE (Hard Maple) **6-8 ft.** **5.50** **15.75**

Brilliant scarlet, orange and yellow foliage in fall. Mature trees are the source of delicious maple sugar from sap in spring. Handsome form. Photo page 10.

CRIMSON KING MAPLE **5-6 ft.** **6.50** **18.50**

You will want to be one of the first to own this new tree. It is a beautiful form of Schwedler Maple, originating in Europe. Like the Schwedler, it develops a rounded, compact top of unusual symmetry, but differs in having foliage of deep purple-crimson all through the growing months.

CUT-LEAF WEeping BIRCH (Silver Birch) **4-5 ft.** **4.50** **12.75**

Graceful white-barked tree with delicate drooping branches. One of the few shade trees under which grass will grow. The white bark, which develops a year or two after planting, is beautiful in all seasons. Grows 20 to 30 feet tall.

LOMBARDY POPLAR **5-6 ft.** **1.50** **4.00**

Tall columnar tree, ideal for use as screen or windbreak. Thrives in wide range of soil and climatic conditions. Grows unusually fast; requires no pruning. Grows 60 to 80 feet. Photograph is shown on the preceding page.

CHINESE ELM **6-8 ft.** **4.25** **11.50**

For quick shade. A very rapid grower with small, dense foliage. Excellent for tall hedge or windbreak. Stands intense cold and extreme heat remarkably well. Excellent shade in 5 short years. Grows 30 to 40 feet. See photo above.

MOUNTAIN ASH **5-6 ft.** **5.50** **14.75**

One of the most ornamental of all trees. Bears large clusters of **BRIGHT ORANGE-RED BERRIES** from midsummer until late fall. Grows 20 to 30 feet tall. Photo at left.

MORaine LOCUST (Trade-marked) **5-6 ft.** **6.50** **18.50**

(Plant Pat. 836.) This is a vigorous, fast-growing, seedless tree, shaped much like American Elm, but not susceptible to disease. A clean tree with no ugly, dangerous thorns and no seed pods. The leaves are so fine that, when falling, they practically disappear. Thrives in spite of smoke and soot, on all kinds of soil. Hard wooded; bends but rarely breaks or splits.

BLACK WALNUT **3-4 ft.** **3.75** **9.75**

Rich flavorful kernels. Does well in fertile, well-drained soil. Very hardy. Grows almost anywhere in the country. Produces annually large crops of nuts with rich, oily kernels of fine flavor. Fine for desserts, nut bread and confections. Tree grows 25 to 40 feet high; fast growing and long lived. Photo page 10.

Musser's Spring 1955 Wholesale Planting List

MUSSER FORESTS, Inc.
INDIANA, PENNSYLVANIA

Our Nursery Sales Office is open weekdays from 8:00 A.M. to 4:30 P.M. Open Sundays during the shipping season, March 15 to May 15 only—10:00 A.M. to 4:00 P.M. Located 6 miles north of Indiana on Route 119. Telephone INdiana 5-5686.

RHODODENDRON HYBRID — Transplants

Grown from seed from red-flowering plants.

*Twice Transplanted..... 10-15" 1.75 EACH

Mass of roots—individually paper wrapped.

*Sold in lots of 5 or more.

SEE PAGE 9 FOR OTHER VARIETIES AND SIZES OF HYBRID GRAFTED RHODODENDRON AND AZALEA.

PIN OAK — Quercus Palustris

Forms a symmetrical, pyramidal head with long pendulous branches. The foliage is deeply cut and assumes a brilliant red autumn color. Because of rapid growth, it is much used for avenues and lawn specimens.

2-yr. Seedlings.....(2-0) 15-20" 20.00 xxxx

NORWAY MAPLE — Acer Platanoides

A large handsome tree with broad, rounded head. The leaves are rich green and remain until late fall. Extensively used for street and shade-tree planting.

1-yr. Seedlings.....(1-0) 6-10" 8.00 40.00

2-yr. Seedlings.....(2-0) 10-15" 14.00 70.00

3-yr. Seedlings.....(3-0) 20-36" 75.00 xxxx

SUGAR MAPLE

2-yr. Seedlings.....(2-0) 6-12" 10.00 50.00

JAPANESE MAPLE

Small red-leaved Maple used as an ornamental.

1-yr. Seedlings.....(1-0) 3-5" 10.00 50.00

SHIPPING SEASON

will begin about March 15, weather permitting, and continue until June 1. Orders will be filled as rapidly as possible from then on. All stock shipped in a dormant condition and may be safely transplanted in any part of the country, regardless of your season.

RED OAK — Quercus Borealis — Hardy Northern Oak

A rapid-growing tree forming a large, round head. The foliage becomes dark red in autumn.

Per 100 Per 1000

1-yr. Seedlings.....(1-0) 6-10" \$10.00 \$50.00

2-yr. Seedlings.....(2-0) 10-18" 14.00 70.00

TULIP POPLAR — Liriodendron Tulipifera

One of the largest and most valuable timber and Ornamental trees. Handsome, glossy, fiddle-shaped leaves, and in spring, bell-shaped greenish yellow flowers, marked with an orange base.

2-yr. Seedlings.....(2-0) 18-30" 10.00 50.00

WHITE BIRCH — Betula Papyrifera

Seedlings..... 16-24" 10.00 50.00

1-yr. Transplants..... 24-30" 25.00 xxxx

LILACS — Syringa Vulgaris

A large upright shrub to 20 feet. This is common purple lilac. Probably the most fragrant of any type.

1-yr. Seedlings—Purple lilac..... 6-12" 5.00 45.00

2-yr. Seedlings—Purple lilac..... 10-18" 10.00 80.00

FLOWERING QUINCE — Cydonia Japonica

Long a favorite Ornamental because of its pink to scarlet flowers, which appear before the leaves. Sometimes called Burning Bush. Attains 10-12 foot height.

2-yr. Seedlings.....(2-0) 8-18" 20.00 100.00

GOLDEN RAIN TREE — Koelreuteria Paniculata

3-yr. Seedlings.....(3-0) 2-3' 50.00 xxxx

SWEETSHRUB — Calycanthus Floridus

A sweet-scented, old-time favorite, beloved for its dark reddish brown, spicy fragrant flowers. Will grow in shaded or open areas to 6 feet or more.

3-yr. Seedlings.....(3-0) 18-24" 30.00 xxxx

WHITE DOGWOOD — Cornus Florida

One of the most beautiful of small trees. Handsome in early spring with its white-petaled flowers and again in fall with bright red fruit and gorgeous leaf coloring.

1-yr. Seedlings.....(1-0) 5-8" 9.00 45.00

2-yr. Seedlings.....(2-0) 8-16" 15.00 75.00

2-yr. Seedlings.....(2-0) 16-24" 18.00 90.00

GOLDEN CHAIN TREE — Laburnum Anagyroides

Showy yellow flowers, borne in long drooping clusters. These rank among the most beautiful of flowering trees. Grows to about 30 feet.

3-yr. Seedlings.....(3-0) 18-24" 30.00 xxxx

ROSA MULTIFLORA

For living fence and wild-life shelter and food.

2-yr. Heavy Transplants..... 3-5" 25.00 xxxx

MYRTLE — Vinca Minor, Periwinkle

Medium lining-out Grade..... 8.00 35.00

MUGHO PINE makes a dense, spreading hedge, hardy, sheared to any form.

A fine, heavy branched, strongly rooted Musser JAPANESE YEW (*Taxus*) Transplant is shown at left. At right is shown a YEW HEDGE, notable for thick growth and lustrous dark green foliage.

White Pine, Austrian Pine and Scotch Pine are among the faster growing evergreens for **WINDBREAKS**. Plant double rows about 6 feet apart with offset for spacing best protection.

Hedges - Windbreaks

Pines, Spruce, Hemlock, Japanese Yew, and many other species can be sheared and developed into beautiful, lasting hedges or windbreaks. They can be kept to almost any height for years. Start with small plants and shear the new tender growth each year to desired form and height. See center pages for additional items.

SPACING FOR HEDGES OR WINDBREAKS — LOW Hedge, 8-10 in. apart, or double rows 12 in. apart — MEDIUM Hedge, 3 to 4 feet, plant 1 to 2 feet apart — TALL Hedge, plant 3 to 5 feet apart.

All orders will be shipped Express or Parcel Post Charges Collect. 50 at the 100 rate.

HEDGES

		Per 100	Per 1000
MUGHO PINE — Dwarf Pine Hedge

ROSE HEDGE ROSA MULTIFLORA THORNY TYPE

A Living Fence — A Winter Paradise for Wild Bird Life

ROSA MULTIFLORA is a tall growing, very thorny shrub, like the wild rose. Very hardy even in poor soil. Grows 2 to 3 feet in a single season to an ultimate height of 6 to 8 feet. Ideal for use as living fence for farm use—keeps in cattle, horses, SHEEP and GOATS. Makes fast growing ground cover. Pinkish white blossoms literally cover plant in June. These are followed by profusion of large red berries which attract game birds such as grouse, pheasant, and partridge, as well as smaller birds. During winter its arching branches provide protection from snow and cold as well as food for birds.

ROSA MULTIFLORA JAPONICA, thorny type, BEST QUALITY, EXTRA HEAVY, 3 millimeter (tops sheared, anything under 3 millimeter graded out).

Per 100 Per 1000

RHODODENDRON—AZALEA *Special!*

Your Rhododendron and Azalea will be shipped in this strong container, insuring arrival in perfect condition.

SPECIAL No. 9

Nursery Grown from True Strain Hybrid Seeds

**BRING GORGEOUS COLOR
TO YOUR GARDEN!**

These are all 2-year Transplants 4 to 8 inches tall, shipped in individual planting bands, with an abundance of fine roots and large leaves. Both Rhododendron and Azalea are hardy and prefer partial shade and acid soil. The Rhododendron are hybrid seedlings grown from red flowering stock; the Azaleas also are from red stock. This is an outstanding value. The gorgeous flowers will add greatly to your garden's beauty. All 12 plants shipped in a special packing carton to arrive safely.

**6 RHODODENDRON
6 AZALEA**

All 12 Postpaid for Only \$5.95

See also Rhododendrons and Azaleas offered on pages 8 and 9.

Section of one bed containing thousands of sturdy hybrid Rhododendron included in this offer. Musser stock is the best!

MATURE AMERICAN HOLLY TREE

SPECIAL No. 10

HOLLY

Special

This offer includes 6 plants of two different varieties:

**4 Hardy American Holly
—pyramidal tree type**

These have glossy green leaves and brilliant red berries. Included are three female plants producing red berries, and one male plant for pollen.

**2 Japanese Holly—
evergreen shrub type**

The above plants are all 4 to 6 inches high, with a mass of roots developed in 2½-in. pots.

All 6 for \$5.95

Shipped postpaid at proper planting time.

ACTUAL PLANT as furnished in this offer

Flowering Trees

No C.O.D's. All stock on this page must be paid for in full with order. SHIPPED POSTPAID.

Each

PINK FLOWERING DOGWOOD 2 to 3 ft. \$3 95

Outstanding among ornamental trees. A profusion of showy, rose-colored blossoms in spring. Deep red foliage in fall. Grows 15 to 20 feet tall

WHITE FLOWERING DOGWOOD 3 to 4 ft. 3 25

One of the most beautiful of all spring-flowering trees. Lovely four-petaled white blooms are borne on spreading branches early in spring. Leaves turn brilliant red in fall. Valuable when used in lawn border or as specimen plants. Unsurpassed for naturalizing effect. Grows 15 to 20 feet tall.

SAUCER MAGNOLIA 2 to 3 ft. 4 95

One of the most hardy of the Magnolias. Large, fragrant, rose-colored flowers cover the tree in early spring. Blooms when very small. Select a sheltered location so flower buds will not be injured by late frosts. Grows 10 to 15 feet tall. Blooming size.

BECHTEL'S DOUBLE FLOWERING CRAB 3 to 4 ft. 3 25

This choice Crab has endeared itself to many growers because of its spectacular display of large, double, rose-like flowers in spring which completely hide the branches. Blooms every year. In general it resembles an apple tree but is much smaller and finer branched. It grows in many locations and benefits from the same care given apple trees.

RED FLOWERING CRAB (*Malus floribunda*)

4 to 5 ft. 3 25

This small tree is round topped, with single carmine buds that change to pink and then white. Very heavy producer of small, blood-red fruit. Will stand severe winters and drought. Grows 15 to 20 feet.

TREE WISTERIA 3 to 4 ft. 5 75

No more lovely sight can be imagined than a Tree Wisteria in bloom. The purplish blue flowers completely cover the tree during May, transforming it into sheer beauty. In formal gardens it is indispensable. On the lawn it develops into beautiful specimens and lives for generations, increasing in beauty and dignity each successive season. Grafted, sure to bloom; balled in peat.

PINK FLOWERING CHERRY, Kwanzan . 3 to 4 ft. 3 50

A low tree, growing to 6 feet. It makes a striking appearance on the lawn because of its unique form and is especially attractive when covered with showy clusters of dainty, rose-pink flowers before the leaves appear in the spring.

JUDAS TREE OR REDBUD 3 to 4 ft. 2 75

Fable tells us that when Judas betrayed Christ this tree immediately dripped all over with drops of blood, and that is the way it looks today when its blooms first come out. Later they turn to beautiful rosy purple. Blooms in April, before the leaves appear. 15 to 20 feet tall at maturity.

PURPLE FRINGE (Smoke Tree) 2 to 3 ft. 2 50

A tree much admired for the curious fringed or hair-like flowers that cover it in midsummer and give a mystic, cloudy effect to the whole tree. Handsome foliage adds its share of beauty. Likes plenty of sunshine and light, well-drained soil. Grows to a height of 10 to 12 feet, and its spreading habit requires considerable space.

TREE HYDRANGEA 3 to 4 ft. 3 50

Large pyramidal trusses of pure snow-white blooms appear in early August. As fall approaches they change to a luminous pink. At this stage they may be cut for all-winter dry bouquets. Flowers measure a foot long and 6 to 8 inches wide. A low-growing tree, standing not more than 4 to 6 feet in height.

PAUL'S SCARLET HAWTHORNE 4 to 5 ft. 3 75

Lovely flowering shrubs or small tree, growing about 15 feet tall, with spreading branches. The leaves are broad, the 3 to 5 lobes much toothed. The large clusters of double, brilliant rosy red flowers are produced in immense quantities. Fruits are scarlet. Well suited to the small yard, where a maple would be too large or create too much shade.

RED JAPANESE MAPLE 1 to 1½ ft. 6 50

Grows no taller than 8 to 10 feet. Foliage is startling crimson all summer. Makes an excellent specimen for yard or formal garden. Has best color when in full sun, but will tolerate moderate shade. Trees moss balled.

RIVER'S PURPLE-LEAVED BEECH 2 to 3 ft. 3 75

One of the most colorful and beautiful of all trees. It is easily grown and long-lived. Foliage is deep maroon in the spring, turning gradually to dark maroon-purple in summer and rich purple-brown in fall. Shapely in growth and rich in color, it will add that final touch of elegance to your lawn. Be sure to plant this variety. Grafted.

\$1.00 Discount

PINK FLOWERING DOGWOOD

TREE WISTERIA

FLOWERING CHERRY

RED JAPANESE MAPLE

Musser FLOWERING SHRUBS

2-Year, No. 1 Blooming Size, 1½ to 2 feet tall. Hardy, well-branched shrubs, shipped postpaid

GOLDEN KERRIA

CALYCANTHUS

CALYCANTHUS
(Sweet-Scented Shrub)

Many know it as the Carolina Allspice. The handsome, bronze-chocolate flowers produced in June are most entrancing, because of their spicy fragrance. Odd-looking pods develop, which are filled with brown, aromatic seeds. Glossy corrugated foliage adds to its unusual appearance. Grows 4 to 6 feet tall and spreads over an area equally broad.

Double GOLDEN KERRIA
(Globe-Flower)

Button-like, golden flowers cover the bush all summer. The very dense, "saw-tooth" foliage serves as an interesting background. In winter the light green, twiggy stems are very decorative. Grows 3 to 5 feet tall.

RED FLOWERING QUINCE

Covered with masses of semi-double, brilliant scarlet flowers in spring, even before the attractive, shiny green leaves appear. This 3 to 5-foot shrub is a "must" in landscaping.

BEAUTY-BUSH

A magnificent flowering shrub, growing to 7 feet. Upright-growing branches arch gracefully outward. During June they are weighted down with pink, bell-like flowers. Hardy; any soil.

DOUBLE MOCK-ORANGE

Pure white, sweet-scented, double, 2-in. flowers in May and June. Will tolerate smoke and other hard city conditions. Grows to an ultimate height of 4 to 6 feet.

SWEET HONEYSUCKLE

SWEET HONEYSUCKLE
(Lonicera tatarica)

Dainty, small, pink, trumpet-shaped flowers in May, followed by a profusion of red berries. Makes a large shrub, 6 to 8 feet in both height and width. Excellent for screening and specimen planting. Grows in the poorest soil.

CARDINAL SHRUB
(Weigela Vaniceki)

Blooms in spring, summer and fall. Plants set out in fall will bloom the next season. Grows 6 feet tall. Produces large, trumpet-shaped, rosy red flowers.

PEEGEE HYDRANGEA

A tall, stately shrub growing 4 feet in height. Branches bend over with giant, cone-shaped flowers which are white at first, then pink, and late in fall turn to copper and bronze. When cut, they last for weeks indoors.

FORSYTHIA, Spring Glory

A new Forsythia which bears masses of large yellow blooms. Canes grow erect, with gracefully drooping tips. Hardy in all sections; ordinary soil.

RED SPIRAEA

A choice, low-growing shrub, distinctive in style and form. Masses of showy, bright crimson flower clusters from July to frost. Ultimate height 18 to 24 inches.

Your choice of those listed below. Plant two varieties for successful pollination (5 to 6 ft.).	\$2 25	\$1 85

WRITE FOR SPECIAL QUANTITY PRICES

- ✓ **EARLY McINTOSH.** Ripens in August. Bright red, early Apple. The flesh is white, tender and juicy, with fine flavor. Ideal dessert Apple.
- ✓ **STAYMAN'S WINESAP.** Comes into bearing young. A reliable cropper with medium to large-sized fruit. Slightly striped, coloring to dull red. Tree moderately vigorous.
- ✓ **YELLOW DELICIOUS.** Ripens October to March. Bright golden yellow fruit of excellent quality. Firm, crisp and very juicy. Finest yellow Apple. Bears young and heavily.
- ✓ **RED McINTOSH.** Ripens in October. Very attractive red Apple of highest quality. Tender, juicy and refreshing. Hardy. Bears young and annually.
- ✓ **CORTLAND.** Ripens November to February. Large red fruit similar to McIntosh. Very hardy and desirable as a cross pollinator.
- ✓ **RED DELICIOUS.** Ripens December to February. Large, dark red Apple with crisp, fine-grained flesh. Excellent flavor.

STANDARD PEACH

	1 to 6 each	7 or more each
Your choice of selected varieties listed below. Sturdy. (5 to 6 ft.)	\$2 25	\$1 85

- ✓ **GOLDEN JUBILEE.** We recommend this comparatively new, widely planted Peach. It is a real money-maker. Resists excessive cold and is a sure cropper. Early, large freestone with yellow, tender, juicy, sweet flesh. Ideal for home use and roadside market. Ripens August 20 to 25.
- ✓ **HALE HAVEN.** Marvelous new Peach. Large, beautifully colored, yellow-fleshed fruit of the highest quality. Ripens 10 days to two weeks ahead of Elberta. Perfect freestone. Good shipper and a heavy bearer. Hardy. Extremely high color before ripening, allowing early picking for distant shipments. Include it in every planting. Ripens September 1 to 5.
- ✓ **EARLY ELBERTA.** An excellent new variation on the famous Elberta. A little rounder in shape and about 10 days earlier in ripening. Freestone. Ripens September 6 to 10.
- ✓ **RED HAVEN.** New, early Peach, thoroughly satisfactory in every way. It has the fine flavor of South Haven and Hale Haven. When other Peaches are still green, this one is bright red. Hardy; freestone. Self-pollinizing; prolific. Ripens August 20 to 25.

STANDARD PEAR

BARTLETT • CLAPP'S FAVORITE • SECKEL

1 Each of These Three Best Varieties (4 to 5 ft.)
THREE varieties needed for pollination . . . Postpaid **3 for \$6.50**
\$2.25 each, postpaid; 7 or more, \$1.85 each, express collect

✓ **BARTLETT.** Well known and adaptable to all situations. Large, golden yellow fruit with a reddish blush. Tender, juicy, with a delicious, musky aroma. The vigorous, long-lived trees attain large size. They start bearing when young and continue annually. Leading commercial and canning pear. Ripens September and October.

✓ **CLAPP'S FAVORITE.** Precedes Bartlett, which it resembles in size, shape, color and flavor. The first Pear on the market. Large, pale lemon-yellow fruit with brown dots. Fine-textured, juicy, buttery flesh with a rich, sweet, delicate vinous flavor. Hardy and productive. Thrives where other varieties fail. Ripens August 15 to 20.

✓ **SECKEL.** For eating fresh and pickling. Medium size; skin rich yellowish brown with deep brownish red cheek when fully ripe. Flesh fine grained, juicy, sweet. Resistant to blight; very productive and hardy. Plant in fertile soils. Ripens September and October.

If prepaid and Express Collect items are shipped together, entire shipment is Express Collect.

5-in-One APPLE

(5 varieties grafted on one tree)

Yellow Delicious, Red Rome Beauty, Red McIntosh, Lodi, Cortland. Plant several of these novel trees for beauty, shade, and for fruit maturing over a long period.

4 to 6 ft., well branched. Postpaid, only. **\$3 75**

RECOMMENDED SPECIES AND SIZES FOR Christmas Tree Planting

SPECIAL STRAIN SCOTCH PINE

In greatest demand in many areas. One of the most rapid-growing species. Brings top price, especially when sheared. Musser Special Strain Scotch Pine retains its blue-green or silvery green color in cold weather. Needles are 1½ to 2½ inches long, curved.

2-year Seedlings.....	5-10 in.	\$7.00	\$35.00
-----------------------	----------	--------	---------

Per 100 Per 1000

AUSTRIAN PINE

Will do well where fumes bother other species. Very dark green needles, 3½ to 7 inches long. Bushy trees, strong branches. Will grow where most of top soil is gone. Increasingly in demand.

3-year Seedlings.....	6-12 in.	7.00	35.00
3-year Seedlings.....	8-14 in.	10.00	50.00

WHITE PINE

Very adaptable as to soil, and will do better on heavy, wet soils than the other Pines. Very soft, silver-green needles 2½ to 5 inches long. Needs shearing to be really compact. Favored in many areas.

3-year Seedlings.....	4- 8 in.	6.00	30.00
-----------------------	----------	------	-------

AMERICAN RED PINE

A rapid-growing, bushy tree, very popular. Dark green, soft needles, 4 to 5 inches long. Many buyers like it as well as Scotch Pine.

3-year Seedlings.....	8-12 in.	9.00	45.00
-----------------------	----------	------	-------

MUSSER EXCLUSIVE NORWAY SPRUCE (Fast Growing)

Most rapid-growing and popular Spruce. This short-needled tree should be sheared when making most rapid growth to insure bushy trees. Cut as late as possible.

2-year Seedlings.....	5-10 in.	7.00	35.00
3-year Seedlings.....	10-14 in.	10.00	50.00

WHITE SPRUCE

Similar to Norway Spruce but with more definite fragrance. Good in highland areas. Fine color and form.

2-year Seedlings.....	4- 8 in.	5.00	25.00
-----------------------	----------	------	-------

COLORADO BLUE SPRUCE

Highly regarded for bluish color and bushy, symmetrical form. Needles hold somewhat better than Norway or White Spruce. If moist, will grow on sandier or heavier soils than most Spruce. Slow growing, but is a premium Christmas tree.

3-year Seedlings.....	5-10 in.	12.00	60.00
-----------------------	----------	-------	-------

DOUGLAS FIR

Compact, pyramidal form, with short, bluish green needles. Easily transplanted. Thrives in rather light soil. Our strain is selected for its hardiness. Fine for Christmas and ornamental tree.

2-year Seedlings.....	4- 8 in.	8.00	40.00
-----------------------	----------	------	-------

CONCOLOR FIR (Silver Fir)

One of the finest species for Christmas tree planting, becoming increasingly well known and wanted. Needles are as blue as a fine Blue Spruce; trunk is smooth and silvery. Needles are about 1½ inches long and remain on tree almost as well as pine. A premium tree.

2-year Seedlings.....	5-10 in.	12.00	60.00
3-year Seedlings.....	8-14 in.	17.00	85.00

GROUND COVERS and VINES

Lots of 50 at the 100 rate

ENGLISH IVY

(Evergreen Vine and Ground Cover)

Per 100 Per 1000

Rooted Cuttings	5- 9 in.	\$15.00	xxxx
3-yr. Transplants	8-15 in.	25.00	xxxx

Mass of roots — sheared back to 3 to 5 runners. Plants shipped with earth and peat moss, individually wrapped. Photo and description at left.

PACHYSANDRA TERMINALIS (Spurge)

Very best evergreen ground cover; hardy, thrifty.

1-yr. Plants	2- 4 in.	9.00	\$80.00
2-yr. Heavy Transplants	3- 5 in.	25.00	xxxx

Mass of roots, 2-3 leaders to each plant. Individually paper wrapped. See photo and description at left.

HALL'S HONEYSUCKLE (Creeper or Climber)

Rapid growing vine with beautiful foliage. Good ground cover. Flowers are very, very fragrant and abundant. Used mostly for bank cover. **OUR STOCK THIS YEAR IS THE BEST.**

Medium, Lining Out Grade	7.00	35.00
2-yr. Heavy Transplants	15.00	100.00

MYRTLE (Evergreen Ground Cover)

Vinca Minor, Periwinkle. One of the best ground covers, small shiny evergreen leaves, and violet-blue flowers in spring. Thrives in shade. Especially valuable for planting under trees or in other shaded spots where grass will not grow. Plant 1 foot apart.

Medium, Lining Out Grade	8.00	35.00
Heavy, Lining Out Grade	11.00	55.00

BITTERSWEET (Deciduous Climber or Ground Cover)

Celastrus Scandens. Showy clusters of orange-red berries for winter bouquets. Sun or shade in any soil. Attracts birds.

Branched	12-18 in.	12.00	60.00
---------------------------	------------------	--------------	--------------

VIRGINIA CREEPER (Vine and Ground Cover)

Ampelopsis Quinquefolia. A splendid ground cover, especially on sandy soils where no other vegetation will grow. Unsurpassed in beauty by any other vine in autumn when the leaves turn to the moist vivid tones of crimson, scarlet and orange. Plant 3 feet apart.

2-yr. Plants	6-12 in.	16.00	80.00
2-yr. Extra Heavy Plants	12-18 in.	20.00	100.00

Plant Climbing Vines and Ground Cover 1 to 1½ feet apart.

ENGLISH IVY — One of the very best **EVERGREEN CLIMBING VINES** and **GROUND COVERS**. Popular close clinging vine. Rich, dark green, glossy, three-lobed leaves make dense covering especially on brick or stone walls. Thrives in any good soil and under smoky city conditions. Is evergreen the year 'round. For walls, fences, etc. Especially desirable beneath shrubbery.

PACHYSANDRA — Excellent in masses under heavy shade of trees. A dense, lustrous evergreen, trailing vine type of ground cover. It thrives under evergreens or anywhere. If planted 3 to 12 inches apart it will give a pleasing effect immediately and in two years' time forms a solid ground cover. Prefers shade; any soil, water liberally. It is **VERY HARDY**. Grows 6 to 8 inches tall. Fine for terraces or any place where grass is not successful.

Many items of larger stock are available balled and burlapped, for pick-up at the Musser Nursery during the packing and shipping season.
